

Art Reflection

Reflecting on your artwork is an important part of the artmaking process.

Share your thoughts in the sections below.

You can keep this as an informal reflection or use it as an outline for a contemplative essay.

What is the name of your artwork?	
Describe what you made:	
What was important about what you did?	
What did you learn while creating this?	
If you could change something, what would it be?	
What is your favorite part?	
If you had all the time, money, and resources, what would you create next?
